HTML / CSS Introduction

Course details

Duration: 1/2 day **Cost:** \$350 (ex gst) **To register email:** training@catalyst.net.nz

About the course

A half day of training on basic HTML and CSS, the building blocks of the web. Starting from very simple concepts (you don't need any prior experience) we will rapidly go from nothing to styling a webpage. The course is hands on so you'll get a chance to have a go yourself, with the support you need to help you if you get stuck.

By the end you will be able to read and write some HTML and CSS and you'll have a grasp of some of the slightly less obvious underlying concepts.

Course Outline

- Overview
- How markup works
- The basic elements of a page
- Links, images, lists
- Why do we need CSS?
- Anatomy of a CSS rule
- Specificity
- Types of styling we can apply
- The box model
- Display and positioning
- Workflow and debugging
- Exercise – styling a page

Note: These are the topics normally covered but might alter slightly depending on the needs of the attendees.

Target Audience

Anyone wishing to learn some basic HTML/CSS and gain confidence in writing or updating some existing code.

Prerequisites

No experience necessary in HTML/CSS.
