**We're the free and open source technology experts.**

Our courses feature experienced tutors and small class sizes. We can tailor any course to meet your specific requirements.

## Implementing ePortfolios with Mahara

Getting ePortfolios and evidence-based learning off the ground in an organisation is a challenging task. It requires good planning, the support from the organisation as well as change in course delivery and expectations on learners but also instructors, facilitators and assessors.

In this workshop, we will look at the factors to consider when starting to work with ePortfolios in your organisation, help you with practical tips to make sound decisions and practice the mechanics of working with Mahara which facilitates the ePortfolio processes.

Objectives (example, dependent on finalised session content):

- Get an overview of important factors for implementing ePortfolios successfully;
- Review your specific requirements and map them against possibilities of ePortfolio use;
- Gain insight into Mahara to use it to its full potential in your context;
- Start your first portfolio for some hands-on experience what your learners will be doing;
- Decide on ways to scaffold the ePortfolio experience at your organisation and start setting them up.

If you are interested in other Mahara workshops, please check out our training offering or request a quote for a custom workshop.

Each workshop:

- Is customised for your organisation;
- Is for up to 6 participants (unless arranged differently);
- Comes with 4 hours of follow-up for up to 2 weeks after the workshop.

### Pricing

The following prices are shown in New Zealand Dollars and exclude GST.

Option	Half-day (3 hours)	Full day (6-7 hours)
Workshop	\$2,800	\$4,320
