React Introduction

Course details

Duration: 1/2 day **Cost:** \$380 (ex gst) **To register email:** training@catalyst.net.nz

About the course

This hands-on introductory course will teach you from scratch how to use React, one of the most popular JavaScript libraries for building high performance single page applications.

Course Outline

- Why React?
- Differences from MV* frameworks
- Your first component
- JSX
- Logic in your render method
- State and props
- Combining components
- Component lifecycles
- Routes using React Router
- Using third party components.

Note: These are the topics normally covered but might alter slightly depending on the needs of the attendees.

Target Audience

Frontend and backend developers who are looking to build modern responsive JavaScript web applications.

Prerequisites

To benefit from this course you must have at least a basic knowledge of JavaScript fundamentals like variables and functions.
